### **DR. SALIM AHMED SALIM'S DIGITAL ARCHIVE SET TO LAUNCH ON 30 SEPTEMBER 2023**

The digital archive of Dr. Salim Ahmed Salim, a renowned international diplomat who served as the fifth Prime Minister of the United Republic of Tanzania and, the eighth Secretary-General of the Organisation of African Unity (OAU) from 1989 - 2001, will be released on 30 September 2023 in Dar es Salaam.

The launching ceremony will be officiated by the President of the United Republic of Tanzania, H.E. Dr. Samia Suluhu Hassan. H.E. Dr. Hussein Ali Mwinyi, President of Zanzibar and the Chairman of the Revolutionary Council, will be in attendance. Other guests will include current and former government leaders, development partners, as well as representatives from the private sector, academia, and civil society.

The archive, ([www.salimahmedsalim.com](http://www.salimahmedsalim.com)) collects videos and images and text documents (such as speeches, notes, and academic papers) of Dr. Salim. It offers unique insights into his journey in public service and his role in international diplomacy and the African liberation movements. It also covers the broader role that African countries played in geopolitics from the 1960s through to the early 2000s.

The archive was prepared by Dr. Salim's family in collaboration with the Government of the United Republic of Tanzania as well as friends. Highlighting the moments that shaped Dr. Salim's life, and more importantly, in his own words, it aims to enrich the history of Tanzania and Africa.

The materials in the archive will appeal to those who want to understand the role that Tanzania and other African countries played in global history and international diplomacy.

Participation in the event will be by invitation only.
